FAQs

Yale Salary and State Payment Offset

- Yale payroll will run as usual. The State will confirm the benefit amount paid to the Appointee; a payroll adjustment will be made to collect any overpayment in arrears. The YSM Academic Affairs Support team will work with the HR leaves team and handle any payroll adjustments. This also applies to all postgrads and postdocs YSM and Central Campus.

Are academic Appointees required to apply to the state for leave?

- Yes, it is a requirement of the State to file if receiving a paid benefit from Yale (e.g., paid Parental Leave)
- If an Appointee is not receiving a paid benefit from Yale (e.g., unpaid leave or a Fellow Appointee) then it is not a requirement to file with the State.

Does the CT PFML apply to all non-academic leaves (e.g., child rearing, medical leaves, caregiver leaves)?

- Yes, please refer to the full list of qualifying circumstances for leaves under CT PFML on the State's website.

When does the 12-month calendar start?

- The start date for the 12-month period is the actual event date

Limited to twelve weeks in a twelve-month period, with the possibility of two additional weeks of leave for incapacity during pregnancy. Individuals caring for a family member who was injured while on active duty in the military can take up to 26 weeks of leave, but only 12 weeks of that leave is eligible for paid benefits from the CT Paid Leave Authority.
FAQs – cont’d

Are intermittent leaves permitted?
- No, academic appointees do not track their time and aren’t eligible for intermittent leaves

Appointees who are paid by the VA
- Fully paid by the VA - Appointee is already receiving a government benefit and will not be eligible for the State benefit
- Compensation split between VA and Yale - only the funds paid by Yale will be eligible under the State benefit

If an Appointee who has requested and been approved for a leave and has submitted their resignation, how do we collect any overpayment if a benefit is received from the State?
- This will depend on the timing of the resignation and the payroll processing schedule. If the final paycheck can be adjusted for benefits received from the State, an overpayment will not happen. If an overpayment occurs, the department will need to request a reimbursement from the Appointee
How does the State benefit work for Fellows that receive a stipend from Yale (not salary/taxable wages), but may receive taxable wages for moonlighting/on call pay?

- Individuals paid only a stipend are not eligible for CT PFML. If the individual also earns wages and meets the CT PFML earned-wage threshold, a CT PFML paid benefit might be approved. A deduction to the Yale stipend would not be made since stipends are not eligible. However, it is expected that the moonlighting/on call payments would decrease or stop altogether due to the individual being on leave.

How do I apply for this benefit if I live in another state?

- The state you reside in may have a similar benefit. Each state has their own website, process guides, and calculations pages, please follow those and review with benefits advisors with each state.
- Review with your department administrator/PI and HR as needed.
